The Department processed seven thousand four hundred ninety one (7,491) work orders in 2012. Of these work orders the drainage, pump maintenance, and road crews completed seven thousand four hundred thirty six (7,436) work requests. This is a ninety-nine point three percent (99.3%) completion rate. The Department continues to follow up on all open work orders to either re-issue or cancel the order due to circumstances not allowing completion.

The Department issued seven (7) culvert permits for property access.

Further, the Department's engineering staff processed and approved twenty five (25) commercial developments and one residential subdivision. All were reviewed in accordance with St. Charles Parish Code for compliance.
